CHIEF EXECUTIVE OFFICER'S MESSAGE 行政總裁的話

隨著 2024 年即將過去，回顧過去一年，我們面臨著新的挑戰與機遇。在這個瞬息萬變的商業環境中，建立一個快樂且充滿活力的企業文化仍然是我們的首要任務。和諧的團隊不僅是一項寶貴的資產，更是推動我們公司持續成功的關鍵。

回顧自己在聯誼的五年旅程，很高興能帶領這專業的團隊，並且已成功完成了第一個五年計劃。這段時間裡，市場競爭加劇，技術革新日新月異，因業務擴展所衍生的資源及成本壓力增加。但在我們共同努力下，實現了許多重要的目標，為公司的未來發展奠定了堅實的基礎。

值得一提的是，我們的辦公室在 2023 年 12 月經過了全面的翻新。這個全新的工作場所不僅提升了我們的工作效率，也為大家創造了一個更好的工作環境。這改變正是我們對於建立開心文化的承諾。

在過去的一年中，我們成功舉辦了多項活動，包括公司大旅行、戶外團隊活動、工作坊、義工活動及節日慶祝活動，這些都極大地促進了我們團隊之間的凝聚力。這些經驗讓我們明白，開心的員工是提高生產力和創造力的基石。當我們在工作中感到快樂，便能全心投入，為自己及公司創造出更高的價值。

然而，開心文化的建立並不僅僅依賴於活動的舉辦，更需要每一位同事的共同努力。我們要持續倡導開放、互相支持的工作環境，讓每一位員工都能在這裡找到自我價值及實現自己的目標。這不僅能提高員工的忠誠度，亦有助於吸引更多優秀人才加入我們的大家庭。

讓我們攜手並進，為聯誼創造一個更開心、積極的工作文化。感謝大家在過去一年中的努力與支持，期待在新的一年里，我們能一起為公司的第二個五年計劃努力，為公司，也為自己，創造更加美好的明天！

CHIEF EXECUTIVE OFFICER'S MESSAGE (Cont'd)

行政總裁的話 (續)

As 2024 comes to a close, looking back on the past year, we faced new challenges and opportunities. In this rapidly changing business environment, establishing a happy and vibrant corporate culture remains our top priority. A harmonious team is not only a valuable asset but also the key to driving the continued success of AEL.

In my past five years' journey in AEL, I took pride in leading the team and successfully completed the first five-year plan. During this time, we navigated fierce competition and rapid technological advancements in the market. As we expanded our business, we faced increasing pressure related to costs and resources. Nevertheless, we have worked hard to achieve many important goals, laying a solid foundation for the future development of our company.

In December 2023, our office underwent a comprehensive renovation, resulting a brand-new workplace that boosts our work efficiency and creates a better working atmosphere for everyone. This change is a proof to our commitment to nurturing a happy culture.

In the past year, we successfully organized various activities, including company trip, outdoor team activities, workshops, volunteer services and festive celebrations, which greatly enhanced our team cohesion. These activities have demonstrated that happy employees are the cornerstone of enhancing productivity and creativity. When we feel happy at work, we can fully engage and create even greater value to ourselves and the company.

However, the establishment of a happy culture does not solely depend on organizing activities, it also requires the collective effort of every colleague. We must continue to promote an open and supportive work environment where every employee can find their own value. This not only enhances employee loyalty but also helps attract more talents to join our family.

Let us join hands and work together to create a happier and positive work culture. I want to express my heartfelt gratitude to everyone for your hard work and support over the past year. I look forward to working together in the new year and strive for the success of our second five-year plan, paving the way for a brighter future for both the company and ourselves!

Building Maintenance Unit for New Acute Hospital at Kai Tak Development Area (Site B) 啟德新急症醫院 Site B – 建築維修單位

Building Maintenance Unit (BMU) is a specialized system designed for the upkeep of high-rise buildings. Their primary function is to facilitate the cleaning and maintenance of a building's exterior, particularly glass curtain walls. Equipped with telescopic arm and telescopic mast, BMUs can access difficult-to-reach areas, ensuring comprehensive coverage.

In March 2022, our company successfully secured the contract for the Building Maintenance Units (BMUs) at Site B of the New Acute Hospital at Kai Tak Development area. The project involves design, supply, and installation of two nos. rooftop BMUs and one no. BMU for the link bridge.

Site works start in March of 2024, and by June, the two nos. rooftop units were completed. However, some track rails' steel support was obstructed by roof cranes. Approximately 40% of the tracks will be installed after roof crane removal. Based on the current schedule, we expect to complete all track installations and BMU testing by the end of October.

During the installation process, we faced challenges such as working at heights, coordinating crane operations, and site conditions. After consulting with site management and optimizing the installation plan, we successfully installed the two BMUs, prioritizing safety and efficiency.

建築維修單位 (BMU) 或簡稱為吊船系統是專為高層建築維護而設計的專用系統。它們的主要功能是促進建築物外部 (尤其是玻璃幕牆) 的清潔和維護。建築維修單位配備伸縮臂和伸縮桅杆，可進入難以到達的區域，確保全面覆蓋。

聯誼於 2022 年 3 月成功取得啟德新急症醫院 Site B 的建築維修單位工程合約。此項目主要涉及設計、供應並安裝兩部屋頂建築維修單位，以及一部連接天橋頂的建築維修單位。

地盤安裝工作於 2024 年 3 月啟動，截至 6 月，兩部屋頂建築維修單位已安裝完成。然而，由於部分路軌的基座位置被天秤佔據，導致無法完成所有路軌的接駁和安裝。因此，約 40% 的路軌需待天秤拆除後才能完成安裝。根據地盤進度，預計今年 10 月底可完成所有路軌的安裝及建築維修單位測試。

在整個安裝過程中，我們面對了多項挑戰，主要包括高空作業、地盤吊運的安排，以及地盤環境的影響。最終，通過與地盤管理人員的磋商，討論並優化安裝方案，確保在安全和高效率的前提下，順利完成兩部建築維修單位的安裝。

Green Warmth Delivery Programme

綠色心意傳遞計劃

This initiative integrates circular economy principles into our corporate social responsibility efforts. We've established a donation area in our Eco-corner, continuously collecting new and used items including clothing, accessories, toys, footwear, handbags, books, small appliances, and household goods. Our colleagues regularly deliver these items to Christian Action's "Green Connect." Christian Action redistributes these donations to their service recipients and underprivileged communities. Any remaining items are sold to eco-friendly recycling partners for export to developing countries. Notably, we conduct large-scale donation campaign during festive seasons, including Chinese New Year care campaigns, Mid-Autumn Festival gift-giving, and Christmas decoration sharing. We aims to ensure these items reach those in need before festivals, allowing recipients to experience community warmth during festive periods. Through these actions, we promote resource recycling while building a compassionate bridge between our company and the community. This contributes to our shared vision of a greener, more harmonious society.

這是一個將循環經濟融入企業社會責任的計劃。我們在公司的環保閣設立了物資轉贈區，長期收集全新或舊衣物、飾物、玩具、鞋履、手袋、書籍、小型電器及家品等，然後同事會定期把物資運送到基督教勵行會「綠創館」。他們會把物資轉贈給服務對象及弱勢社群，其餘會售予環保回收商業伙伴，出口到發展中國家。值得一提的是，我們在歲時節慶之際，進行大型捐贈活動，如新春關懷行動、中秋佳節贈禮及聖誕裝飾分享，希望在每個重要節日來臨之前，物資可以送達至需要之人手中，讓他們在節日的氛圍中感受到社會的溫暖，把愛與關懷帶入他們的佳節時光。我們身體力行促進了資源的循環利用，在企業與社區之間搭建了一座愛心的橋樑，共同編織著一個更加綠色、和諧的社會願景。
